Ben,

Here is the info from the recent monitoring conducted by ADEQ.

Thanks,  
Balaji

Balaji,

Attached is the Datalog from the air sampling performed on the 25<sup>th</sup> of April. Also attached is the location on the map where I took the samples from as well as some photos showing the location of the meter.

I did not get official wind speed or temperature at the time of test. the wind was blowing approximately 10-20 MPH that day. Temperature for that day in Buckeye, AZ was 86/61.

If there is anything else I can provide please let me know
